Summary

The document provides an overview of Memorandums of Understanding (MoUs) and collaborations established between academic institutions, industries, and organizations from 2019 to 2024. These partnerships aim to enhance academic, skill development, and research initiatives through student and faculty exchanges, internships, and industry collaboration.

Key collaborations include academic partnerships with institutions like Aadikavi Bhanubhakta Campus (2024- 2029) and Bundelkhand University (2022-2032), focusing on educational cooperation and seminars. Skill development partnerships with Salesforce (2023-Ongoing) and MAAC Gwalior (2022-2024) offer IT education and graphic design training. Industry-academic collaborations, such as with Daksh Electronics (2024-2027) and JK Cement (2023-2026), emphasize practical industry knowledge and research grants.

Research and development-focused MoUs, like Reflex Solutions (2022-2025), provide funding for joint research, while short-term agreements with organizations like Testbook Edu Solutions (2022-2023) offer career guidance and assessments. Some partnerships, such as with Palo Alto Networks, are open-ended, focusing on certifications and skill enhancement.

Overall, these collaborations bridge the gap between academia and industry, promoting global research, skill development, and employment readiness across multiple disciplines.
