MOU for academic and educational cooperation	Aadikavi Bhanubhakta Campus, Tanahun, Nepal	23 January 2024	05 year	• Expert lecture • Collaborative event

MEMORANDUM OF UNDERSTANDING (MOU)

between

INSTITUTE OF TECHNOLOGY & MANAGEMENT
GWALIOR · MP · INDIA
"THINK BIG... THINK BEYOND"
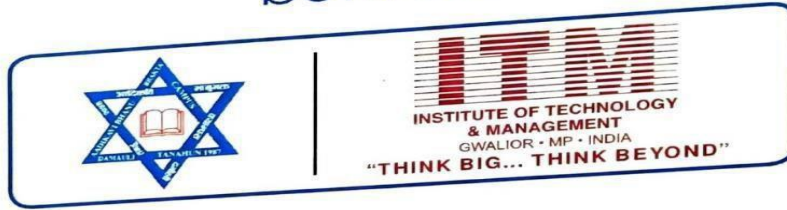

Institute of Technology & Management, Gwalior, India
&
Aadikavi Bhanubhakta Campus, Tanahun, Nepal

This is the MOU reached between **ITM GWALIOR, MADHYA PRADESH, INDIA**, having its headquarters at GWALIOR, hereinafter referred to as First party, and **AADIKAVI BHANUBHAKTA CAMPUS (ABC), NEPAL** Community Campus hereinafter referred to as Second Party.

Whereas, ITM Gwalior is one of the best institutes in India in terms of its academic reputation and infrastructure offers virtually unlimited opportunities for inquiry, discovery, and education with uniquely crafted teaching-learning pedagogy - and yet is a close community that provides a real sense of belonging And whereas the Second Party **AADIKAVI BHANUBHAKTA CAMPUS (ABC), NEPAL.**

Aadikavi Bhanubhakta Campus (ABC), publicly owned, is the largest educational centre for higher education in Tanahun district. It is located at Vyas Municipality, the head quarter of the district. It is 150 Km West of Kathmandu and 50 Km East of Pokhara.

ABC was established in the year 1987 and is the first campus established in this region. The campus was established to provide quality higher education at local level to the students. Since its inception students from downtrodden, indigenous, marginalized, educationally disadvantaged communities are getting benefit from this institution. The campus has been providing education to the students of Tanahun and the adjoining districts - Syanja, Kaski, Gorkha, Lamjung, and also the students from various parts of Nepal staying in Tanahun with different purposes.

1.0 PURPOSE

The purpose of this MOU is to develop academic and educational cooperation on the basis of equality and reciprocity and to promote sustainable partnerships and mutual understanding between the AADIKAVI BHANUBHAKTA CAMPUS (ABC), NEPAL and DEPARTMENT OF MANAGEMENT, ITM GWALIOR, MADHYA PRADESH, INDIA. Both ABC and ITM may be referred to individually as the "party" or collectively as the "parties".

Dean (R&D)
Institute of Technology & Management
Gwalior (M.P.) INDIA

2.0 SCOPE OF ACTIVITIES

ABC and ITM aim to undertake cooperation in areas that may include, but are not restricted to, the following.

a) Student exchange for research and study
b) Exchange of faculty, staff and research scholars
c) Joint research activities
d) Continuing education programs
e) Organization and participation in seminars, symposia, short-term academic programs and academic meetings
f) Exchange of research and educational materials, publications, and academic information
g) Technical assistance
h) Other with mutual consent of both the parties.

3.0 ACTIVITY AGREEMENTS

Before any activities may be implemented, the parties shall discuss the relevant issues to the satisfaction of each party and enter into specific activity agreements based on the mutually agreed objectives and outcomes of the activity. Activity agreements will include such terms as the following

a) Elaboration of the responsibilities of each institution for the agreed-upon activity
b) Specific schedules for the activity.
c) Budgets and sources of finances for the activity.
d) Detailed management of intellectual property rights and publications.
e) Any other items deemed necessary for the efficient management of the activity

4.0 COORDINATORS

All activities conducted under the auspices of this MOU must have the endorsement of the coordinators. At ABC , the coordinator will be _____ ABC and at ITM, the coordinator will be _____, DEPARTMENT OF MANAGEMENT Coordinators shall notify their counterparts should a new person be named to the position.

5.0 RENEWAL TERMINATION

5.1 This MOU shall remain in force for a period of five years from the date of the last signature. This MOU may be extended by the written consent of the parties.
5.2 This MOU may be terminated by either party giving written notice to the other party at least 180 days in advance of the stated termination date. Termination of this MOU shall not affect activities in progress pursuant to specific activity agreements, which shall continue until concluded by the parties in accordance with their terms or as otherwise agreed to by the parties in writing.
5.3 This MOU may be amended only by the written consent of the parties.

MOU for academia industry collaboration	Daksh Electronics (P) Ltd. New Delhi	01 March 2024	03 year	• Research Grants of 5.60 lakhs
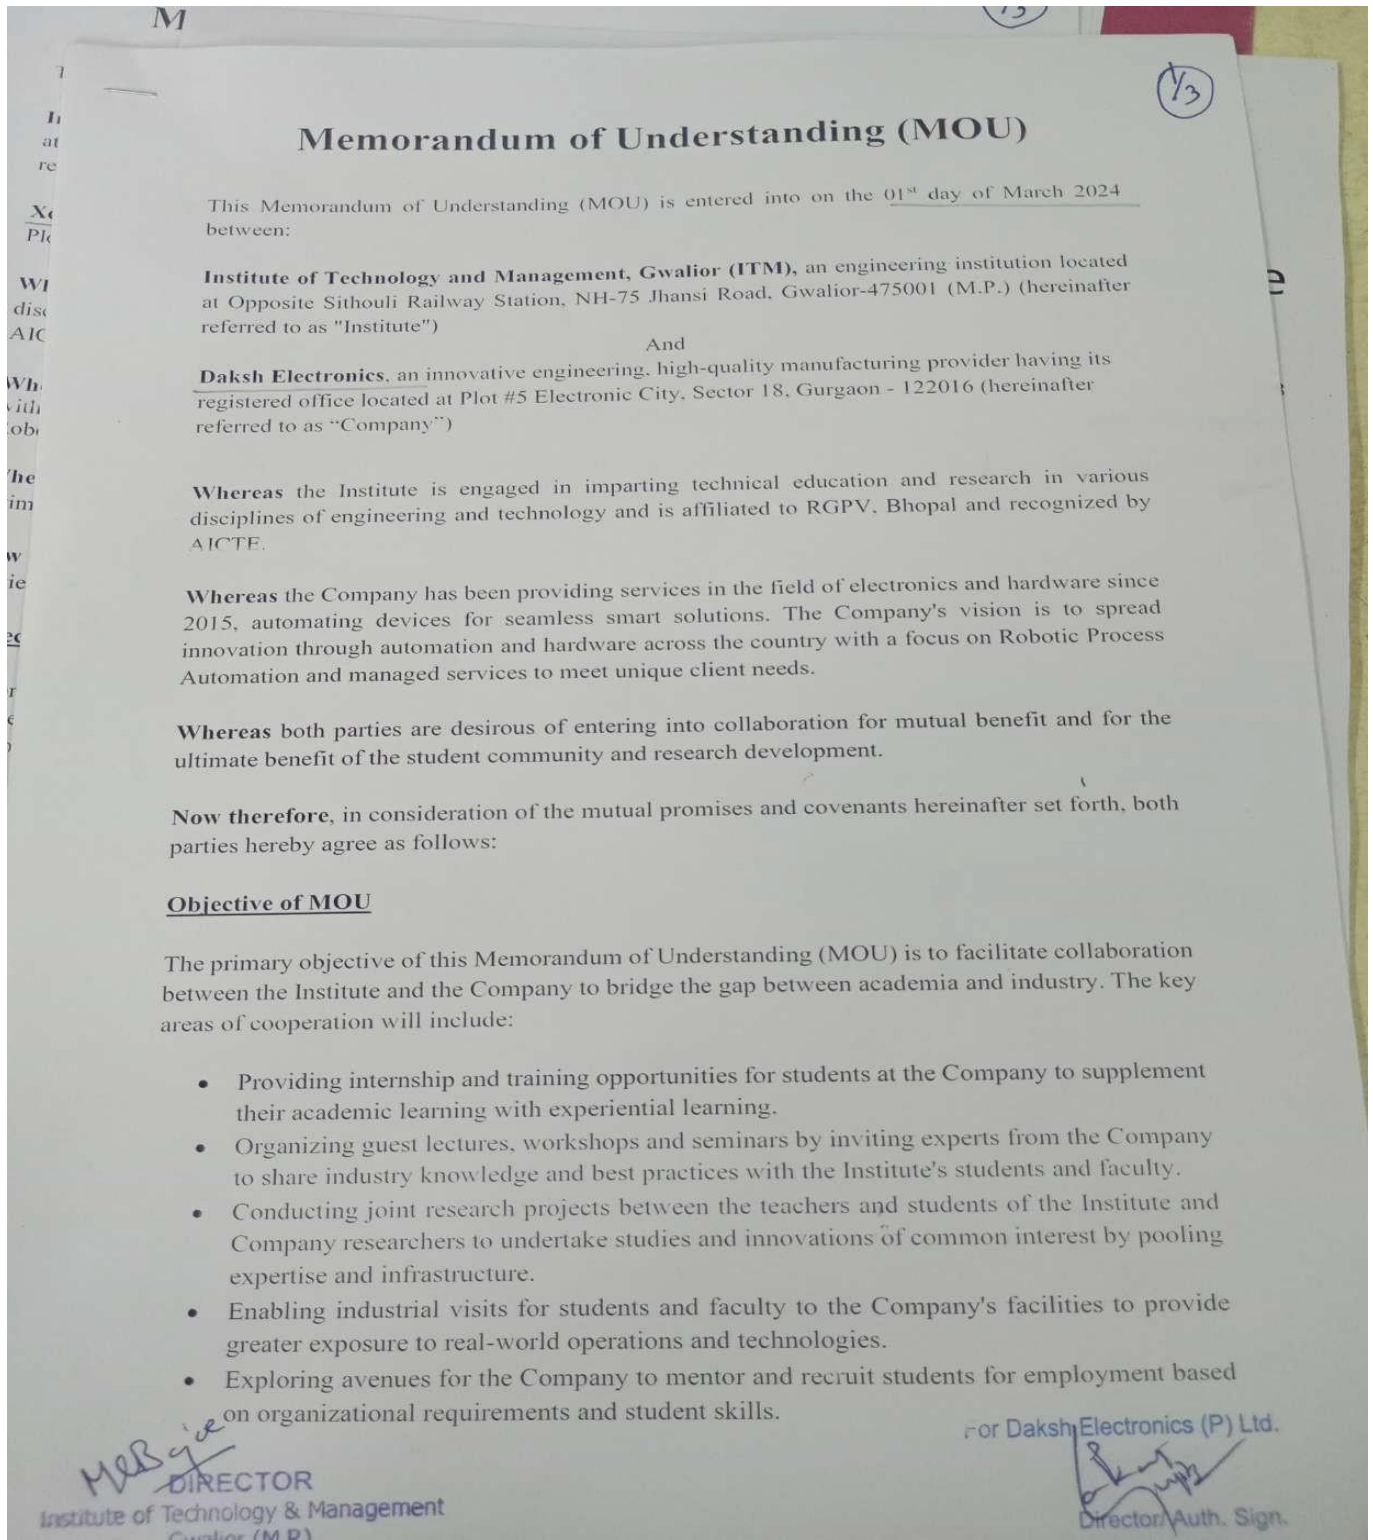

Memorandum of Understanding (MOU)

This Memorandum of Understanding (MOU) is entered into on the 01st day of March 2024 between:

Institute of Technology and Management, Gwalior (ITM), an engineering institution located at Opposite Sithouli Railway Station, NH-75 Jhansi Road, Gwalior-475001 (M.P.) (hereinafter referred to as "Institute")

And

Daksh Electronics, an innovative engineering, high-quality manufacturing provider having its registered office located at Plot #5 Electronic City, Sector 18, Gurgaon - 122016 (hereinafter referred to as "Company")

Whereas the Institute is engaged in imparting technical education and research in various disciplines of engineering and technology and is affiliated to RGPV, Bhopal and recognized by AICTE.

Whereas the Company has been providing services in the field of electronics and hardware since 2015, automating devices for seamless smart solutions. The Company's vision is to spread innovation through automation and hardware across the country with a focus on Robotic Process Automation and managed services to meet unique client needs.

Whereas both parties are desirous of entering into collaboration for mutual benefit and for the ultimate benefit of the student community and research development.

Now therefore, in consideration of the mutual promises and covenants hereinafter set forth, both parties hereby agree as follows:

Objective of MOU

The primary objective of this Memorandum of Understanding (MOU) is to facilitate collaboration between the Institute and the Company to bridge the gap between academia and industry. The key areas of cooperation will include:

- Providing internship and training opportunities for students at the Company to supplement their academic learning with experiential learning.
- Organizing guest lectures, workshops and seminars by inviting experts from the Company to share industry knowledge and best practices with the Institute's students and faculty.
- Conducting joint research projects between the teachers and students of the Institute and Company researchers to undertake studies and innovations of common interest by pooling expertise and infrastructure.
- Enabling industrial visits for students and faculty to the Company's facilities to provide greater exposure to real-world operations and technologies.
- Exploring avenues for the Company to mentor and recruit students for employment based on organizational requirements and student skills.

- Exchanging academic resources, industry developments and other knowledge sharing between the Institute and the Company to keep both parties updated.

The overall aim is to build a strong collaborative network between the industry and academia through such initiatives to produce industry-ready graduates equipped with skill sets aligned to the needs of the industry. The cooperation will be mutually beneficial for both the Institute and the Company.

Terms and Conditions

1. **Internships, Projects& Consultancy**

   i) The Institute and the Company will work together and the company will offer internships to students of all the engineering and management disciplines, as per terms agreed upon by both parties.

   - This may include the number of internship roles, duration, stipend/allowance, facilities, learning objectives, evaluations etc.
   - The collaboration will provide students with industry exposure and practical training aligned with their academic knowledge.
   - Both the Institute and Company will outline expectations, institute will provide infrastructure at its location and ensure a productive internship experience.

   ii) The Institute and Company will jointly mentor and guide students undertaking capstone and industry-linked projects as part of their academics.

   - Faculty and company personnel will team up to guide and evaluate student projects.
   - Students will tackle real-world business problems in both the institute and the company, guided by both parties.
   - The company will provide data, case studies, and tech access for projects, while the institute offers technical guidance and research support.
   - The institute may offer consultancy to the company under agreed terms.
   - Both may collaborate on research projects, sharing expertise and resources. Any intellectual property generated will be jointly owned based on mutual agreement.

2. **Guest Lectures and Workshops**

   - The Institute and the Company will work together to organize guest lectures, seminars, workshops and conferences at the Institute's premises. For these events, the Company will provide industry experts from its organization as speakers and resource persons.
   - The Institute will utilize its campus infrastructure and facilities to host the events. Both parties will coordinate schedules and requirements to ensure smooth organization and effective programs that benefit the students.

3. **Industrial Visits and Training**

   - The Company will coordinate and arrange for industrial visits to its facilities for students and faculty of the Institute.
   - This will allow students to gain first-hand exposure to real work environments, manufacturing processes, the latest technologies etc. related to their fields of study.

Subject: Sanction of Funds for Research on "Software (Mobile Application) Development for Daksh Fire Panel Control Addressable"

Dear Dr. Rishi Soni,

We are pleased to inform you that Daksh Electronics PVT Limited has sanctioned a grant of Rs. 11, 20,000/- (Rupees Ten Lakh and Eight Thousand only) for your research project titled "Software (Mobile Application) Development for Daksh Fire Panel Control Addressable" submitted/discussed via email under the signed MOU between ITM Gwalior and Daksh Electronics. This grant is awarded based on the merit of your research proposal and the potential impact of your study on the Safety and Automotive sector.

The funds are to be utilized exclusively for the purpose of conducting the research and must be expended within the next two years from the date of this letter. The sanctioned amount will be disbursed in instalments as per the following schedule:

1. **Initial Disbursement**: Rs. 5,60,000/- (Rupees Five Lakh and Sixty Thousand only) upon submission of the initial research plan and budget breakdown.
2. **Second Disbursement**: Rs. 3,36,000/- (Rupees Three Lakh and Thirty-Six Thousand only) upon submission of the interim progress report after the first year.
3. **Final Disbursement**: Rs. 2,24,000/- (Rupees Two Lakh and Twenty-Four Thousand only) upon submission of the final research report and audited financial statement.

Please ensure that all expenditures are in accordance with the budget submitted in your research proposal. Any deviations from the approved budget should be communicated to us and approved in advance.

We expect you to submit periodic progress reports and a final comprehensive report upon completion of the research. The findings from your research should be published in reputed journals and presented at relevant conferences.

We trust that this funding will facilitate your research and contribute significantly to understanding the factors influencing the adoption of the project. We wish you all the best in your research endeavours.

Sub :   Regarding the Salesforce Courses / electives to be inducted into the curriculum - inline with the UGC / AICTE guidelines and New Education Policy 2020

Dear Sir / Mam,

          Greetings from Salesforce. Thank you so much for your email regarding the intent of induction of Salesforce technologies into the University curriculum. Some of the pointers regarding the induction of these courses into the Engineering Curriculum:

1. **Syllabus**: As per the request I have attached the Syllabus for your reference on Salesforce Developer, Salesforce Admin and MuleSoft . The Syllabus has the mention of Objectives, prerequisite, curriculum in detail along with the reference books.
2. **Outcome Based Model:** The outcomes can be defined inline with outcomes of the Program, Course as well as some other International standards such as Assurance of Learning (AoL) / Assessment for Learning (AfL) based on the requirements of QS.
3. The curriculum is inline with the guidelines of Indian Academia, since the college is NAAC Accredited / Departments are having NBA accreditation along with the NIRF, addition of this Industry curriculum will give an edge and will have a meaningful collaboration with Industry
4. **Core Paper / Hardcore / Softcore Paper** - These courses can be introduced as a Hard core / Soft core paper in the Engineering Departments such as Computer Science Engineering / Information Science Engg / MCA or other relative Computer Science / IT Engg branches (New branches introduced by AICTE) in the 5th / 6th / 7th Semester of Engineering based on your convenience/ BoS recommendations, as a hard core paper (Subjected to your BoS and Academic Council's opinion)
5. **Professional / Career Elective Paper -** These courses can be introduced as an Professional Elective / Career Elective within the Engineering Departments such as Computer Science Engineering / Information Science Engg / MCA or other relative Computer Science / IT Engg branches (New branches introduced by AICTE) in the 5th / 6th / 7th Semester of Engineering based on your convenience. / BoS recommendations.
6. **Open Elective Paper -** These courses can be introduced as an Open elective to the Non Computer Science / Information Science Engineering Departments. This will help the other branch students to upskill themselves in Integration and API Management.
7. **Value Added Course** :   This is a guided Self Study approach, which can be introduced to any branches of Engineering at the campus, specially those students who are extremely good in IT and enthusiastic about this technology. This is a good option for the non autonomous institutions, which are still in affiliated mode.
8. **Content Delivery for the Course :** The faculty members from your institute who were a part of the Faculty Development program (FDP) for 5 days can take up the content delivery after a couple of rounds of further interactions. The students can effectively learn from the virtual internships offered from Salesforce (recognized by AICTE), which will give more handson to the students, as this hands-on has been guided by the expert trainers along with Self study.
9. **Regarding the Continuous Assessment of the students throughout the semester:** The evaluation of the students during the Internal Exam I, II, Class Tests I, II, Assignments, Seminars, project evaluation, Term End Examinations, Internal & External Marks, Results etc are left to the respective departments who float the Paper during the academic year / semester. This will be as per the regulations set by your institution / university; subjected to the University regulations passed by the Board of Studies / Academic Council and Governing body of the college inline with regulations of the affiliated university.
10. **Certification :** (a) Since these courses are part of the curriculum, it's an opportunity for the institute / students to have an exclusive mention in their marks cards.   (b) If the students enrol; and complete the Virtual Internship from Salesforce, they will get a Virtual Internship Completion certificate (with Salesforce logo, Partner logo and AICTE logo).   (c) Students can also register on NASSCOM Future Skill Prime and get a certificate; these certificates will add value to them.
11. **Regarding the Approval of the syllabus :** The syllabus could be presented at the Board of studies of your institution, based on the BoS comments and recommendations, you may forward this to the Academic council / Governing body for formal approval to be inducted as a Core / Elective / Open Elective paper. Credits, Scheme of Teaching, Scheme of Examinations can be added along with this curriculum during the recommendation process
12. **Regarding the Interaction :** University Program Manager is available to help you and your faculty / department on the above; We will be able to give updates and more information on technology during the Department meetings / BoS etc

Once again, wishing you and your team all the success.
